RONIT RAJ

Computer Science Engineering Student | Frontend Developer | Agentic AI

Jaipur, Rajasthan, India | +91-7368868707 | ronitrajrsr0409@gmail.com

GitHub | Portfolio | LeetCode | LinkedIn

PROFESSIONAL SUMMARY

Computer Science Engineering student with hands-on experience in frontend development, Generative AI, and Agentic AI. Strong foundation in Python, C++, Java, DSA, SQL, Git/GitHub and Linux, with experience building web applications, AI-powered tools, and practical software projects. Actively focused on problem solving, AI engineering, and full-stack development.

EDUCATION

Arya College of Engineering, Jaipur — B.Tech in Computer Science & Engineering | 2024 – Present CGPA: 7.94/10

Eklavya Central School — Class XII: 70% | Class X: 92%

TECHNICAL SKILLS

Languages: Python, C, C++, Java, JavaScript, TypeScript, SQL

Web: HTML, CSS, React, Tailwind CSS, FastAPI, Streamlit

AI / ML: LLMs, Generative AI, Agentic AI, AI Agents, RAG, Prompt Engineering, Tool Calling, AI Workflows

Testing: PyTest, Automated Testing, Test Generation, Failure Analysis

Tools: Git, GitHub, Linux, VS Code, Jupyter Notebook, Docker

AI frameworks: LangChain, LangGraph, Groq

Core: DSA, OOP, DBMS, Software Engineering, Problem Solving

EXPERIENCE

Agentic AI Intern — Grras Solutions (P) Ltd. | 2026

• Worked on Agentic AI concepts and practical AI-agent workflows.

• Explored LLM-based applications, tool use, orchestration, and automation.

Frontend Development Intern — CodexIntern | Aug 2025

• Built frontend applications using React and Tailwind CSS, including a text translator and random string generator.

• Implemented client-side routing and responsive user interfaces..

Frontend Developer Intern — CodSoft | 2025

• Developed responsive web interfaces and landing pages using React, Tailwind CSS, and React Hooks.

SELECTED PROJECTS

Resume Analyzer — **Python, LangChain, Groq, Llama 3.3, NLP**

Developed an LLM-powered resume analyzer that processes PDF resumes and extracts structured **skills, education, experience, and project data**, enabling automated candidate-job matching.. Implemented resume parsing, skill extraction, and job-description matching to evaluate candidate compatibility and generate meaningful recruitment insights.**Guided AI Chatbot** — Python, FastAPI, LLMs

Built a guided conversational application with modular prompts, memory, and web application components. LINK

Testpilot-AI —**TestPilot AI — Self-Improving Test Generation Agent | Python, Groq, PyTest, Streamlit**

Built an Agentic AI testing system that analyzes Python code, generates PyTest cases, executes tests, and iteratively improves failed test cases using LLM-generated feedback. Designed a multi-stage workflow consisting of code analysis, test generation, test execution, failure analysis, and iterative test improvement using Groq-powered LLMs. LINK

CERTIFICATIONS

• HackerRank: Problem Solving (Intermediate), PYTHON (Basic) — 2026.

• LinkedIn Learning: AI Pair Programming with GitHub Copilot; DevOps Foundations: Containers — 2026.

• MongoDB Basics for Students; IBM Python for Data Science; Python 101 for Data Science.

• Deloitte Data Analytics Job Simulation; Tata Group Data Visualisation job simulation.

• Regular DSA/problem-solving practice on coding platforms; active GitHub project development.

ACHIEVEMENTS

Earned the **LeetCode 50 Days Badge** and solved **100+ coding problems**, demonstrating consistent DSA practice and problem-solving skills.

Achieved **1,000+ GitHub contributions**, reflecting consistent coding, project development, and collaboration.

Participated in **college-level coding contests on HackerRank**, competing in programming and problem-solving challenges.
